

23 Feb. 1989.

Exposure & Video Positive.

Dear *David Curtis*

thankyou for visiting Liverpool to attend the Exposure conference and Video Positive '89. I hope that your visit was enjoyable and worthwhile and that part or parts of it were relevant to your particular interests.

You may be interested to know that the Bluecoat Gallery is having record attendances for the exhibition, and that the level of public interest in the event as a whole has been extremely high.

It is our hope that the success of this festival will help further promote artists' video in the U.K. and that other galleries and organisations throughout the country will begin to develop projects themselves or in collaboration with others.

We are enclosing a list of names and addresses of those who attended the conference - the list is not totally exhaustive since those who registered on the day did not leave their addresses, but we hope that the information will be of some use.

We would be very pleased to hear from you with any comments you have about the conference and the festival as a whole, and should you have any more general enquiries about video exhibition in general, or particular projects that may be of interest to ourselves or to other organisations we are in contact with, then we would be grateful to receive this information. We will in the future be producing a periodic information bulletin (approximately every three months) that will list video & time based exhibitions and events throughout the U.K. and will be circulated to galleries on our mailing list, as well as to artists and to relevant publications.

Thanks again for your support,

sincerely,

*J Welsh*

Jeremy Welsh.
