Arnolfini Video Access Library

Please find attached the figures for the first six months of the Arnolfini Video Access Library. I think that the results are extremely good and vindicate the experiment completely. It also reinforces my view that the Council should provide the funds to enable us to develop the concept further. I think it is going to be an important element in Arts Centres and Galleries, and we should be considering and planning what to do. It is going to be one of the distribution formats of the future.

I make it 331 viewings in all, plus those for Artists Films and Videos, for which we do not have figures yet.
