NEW WAVE WOMEN; Experimental Films by Women

We are pleased to enclose the attached information on this touring package which Cinenova have assembled with the financial support of the Arts Council's Film, Video and Broadcasting department's touring scheme. The programme makes a perfect starting point for an exploration of the formal, political and cultural concerns of women filmmakers over the last fifteen years and as such would be of enormous benefit to those studying film both on a theoretical and practical level.

Details have been circulated to regional film theatres and cinemas supported by the BFI. Although we will be taking bookings for non-theatric screenings at colleges and other educational institutions we are hoping to tour the package to the regional exhibition circuit. If you would be interested in supporting a screening at a local venue then please contact your cinema or media centre to express your interest. All the work is available on 16mm, there is no video in the package.

The package will tour for approximately six months, and availability will be limited, so if you are interested either in collaborating on a theatrical screening or if you would like to screen the work in a gallery or at college we will need to hear from you as soon as possible. If you require further information then please don't hesitate to get in touch. We look forward to hearing from you.

With best wishes
