Dear Gary,

NEW WAVE WOMEN

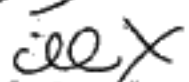

Greetings from Bethnal Green. Dave said you'd be delighted to give me some information to help with my tour booking. The precise information I'd like if you have it to hand is:
1) The venues screening the Cordelia/Tina Womens film package, A CAMERA OF ONES OWN which went out on tour via the Umbrella (in 86??). Hopefully this information is given in their reports to you.

2) Do you have a copy of the European contacts on your Film and Video data base. I spent about three days two years ago putting together a very skeleton list of contacts, which presumably has been greatly expanded. It would be useful to have a look at that list of European venues.

Sorry if this causes you endless trouble and toil, but if its not too painful this information would be very useful.

Thanks. Oh, and could you tell Dave that I now have five provisional bookings from RFTs for the tour, we need to firm up dates and there are still several being chased, but given that their programming is becoming somewhat conservative (and that initiatives like WEAVE have demised) I am relatively pleased with the response.

Best wishes

Gill Henderson
