14th December, 1990

Dear Sir,

Re: Agreement No.: 9039570

We have for many years been successful in minimising the effects of cost increases which has enabled us to continue providing a cost effective and efficient parcels service. However, we are currently faced with the need to review our charges as a result of increases in wages, fuel and other costs.

We must therefore, regretfully inform you that your charges will be increased by 11.5% with effect from 1st January, 1991. Similarly, where we provide additional services in excess of contract, these also will reflect the above increase in our charge rate from the same date.

These prices will appear on the Invoice raised in February, 1991 relating to work carried out in January.

Yours faithfully,

R. Prior
